

# THE *Widest* PORT IN YOUR DOCK *Life*

## EZ PORT 280

156" (3.96m)

The EZ Port 280 widebody design is the widest port on the market, with 10" of additional walkway space on each side of the craft, making loading and unloading effortless, no matter the type of waterfront location. The EZ Port 280 is the perfect solution for those looking for an easy-to-access, drive-on port to keep their PWC high and dry in both saltwater and freshwater applications. Designed for PWC enthusiasts, the EZ Port 280 combines EZ Dock's quality and durability with 33% more width than our most popular PWC port. In addition, this game-changing expanded design allows for greater ease when cleaning and maintaining your PWC. The EZ Port 280 connects seamlessly with any EZ Dock system, is compatible with all existing docks, and can be secured to the shore or lake bed without a dock.

- **The widest port on the market, making it compatible with most PWC's currently on the market**
- **Protects PWC's from the elements**
- **Eliminates marine growth on PWC's for less maintenance and longer product life**
- **Does not need to be removed in locations where currents or wind do not affect the flow of water and ice**
- **Can be used with or without a dock**
- **Connects to virtually any dock system**
- **Provides convenient access to PWC**
